HOW TO ADD IT

Buying online? Add telehealth to your cart when you purchase your dental and/or vision plan at emihealth.com.

Working with a broker? Just ask — your broker can add it to your enrollment.

Telehealth is available 24/7 via phone or secure message. Video visits may be limited to certain hours based on provider availability. Services are administered by Recuro Health and do not generate insurance claims. The \$7.50 monthly cost is in addition to your plan premium. Prescriptions are not included — if the doctor prescribes medication, you pay the pharmacy directly. Not for emergency care—call 911 in case of a life-threatening condition.
